

TRAINING SEWING TECHNOLOGY

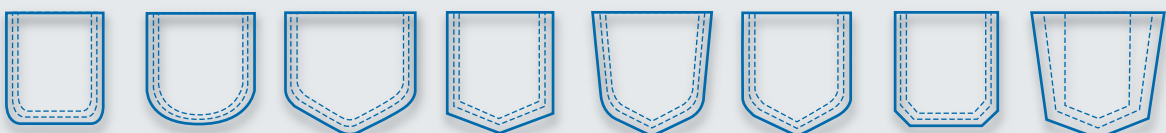

Training for self-manufacturing of creasing sets and transfer devices on sewing unit 806N

The Dürkopp Adler premium training concept for customers, dealers and technicians is an efficient solution to save costs and increase your flexibility. Our competent training department will teach you in easy steps to manufacture the creasing set and transfer device completely by your own.

Benefit from the efficient training: Save costs and increase your flexibility!

Manufacture the creasing set and transfer device completely by your own!

New individual solutions for Dürkopp Adler creasing sets and transfer devices

Dürkopp Adler offers you, besides the standard procedure, two new options to train the manufacturing of creasing sets and transfer devices on sewing unit 806N.

Procedure

Standard procedure	Order the shaped finished creasing set and transfer device directly from Dürkopp Adler.
Option 2 (new)	Order the semi-finished parts and assemble them by your own.
Option 3 (new)	Order the part set from Dürkopp Adler and manufacture the creasing set and transfer device completely by your own – therefore a special training is recommended!

Option 2 (S806-1)

Option 3 (S806-2)
